Financial services are the economic services provided by the finance industry, it manage the key services such as remittance, unions credits, post pay bills, government bill collection, recharge cards, fidelity cards, corporate payments, ... It aims to increase their market share in order to reach the majority of a population. BoB Finance s.a.l is one of the largest networks of financial services operating in Lebanon.

BoB Finance in collaboration with VALOORES provides a variety of services:

- **Money Transfer:**
  Covering money transfer transactions domestically through an easygoing Intra transfer application. Also covering international money transfer transactions through the incorporation of Western Union.

- **Bill Payment:**
  Settling landline, mobile post-paid, and mobile pre-paid bill payments at any location.

- **Online Payment:**
  CashU’ is an electronic payment method assisting any business in becoming a successful online merchant. The ‘CashU’ is a physical top-up card, recharged by its customers as needed.

- **Government Bill Collection:**
  Engineers and Pharmacists all across Lebanon can now pay membership and insurance fees at any of BoB Finance sub-agents.

- **Ministry of Finance:**
  BoB Finance now covers a variety of sub-services under the supervision of the Ministry of Finance such as Mechanic fees payments, TAX fees payments, VAT fees payments, and Property Built fees payments.

- **Government Bill Collection:**
  Lebanese Association of Public Accountants in Lebanon and the Lebanese National Higher Conservatory of Music students – both current and prospective students – can now pay their duties at any of BoB Finance sub-agents. Through this service as well, the residents of the Bekaa region can now pay their yearly water membership amounts.

- **VIP Cards:**
  BoB Finance provides loyalty cards called Fidelity VIP cards for point’s collections and later redemption by customers. The Points are calculated based on the transactional performance of the customers.

- **Park Meter (Ticket Management):**
  This service will allow any customer to settle his ticket at any potential subagent.
in’Financial Services

Key Features:

• Business Requirement Gathering and Gap Analysis
